

# Havana in style

**El Paseo** occupies the whole top floor of a 1950's building in *Avenida Paseo* in Havana, Cuba. This leafy avenue begins in iconic *Plaza de la Revolución* and ends in even more iconic, *Malecón*.

The elegant penthouse features two spacious suites, many balconies, a veranda and a big rooftop to sunbathe or just lounge watching the sun set.

Its renovation was a labour of love. Kitchen and bathrooms were updated with custom designs, crafted with locally sourced materials: terrazzo, marble and cedar wood. Existing 30's mahogany beds were carefully restored and mixed with Danish mid century furniture, Italian lamps, contemporary pieces and Cuban Art. The feeling is sophisticated yet relaxed.

**El Paseo** offers the best of both worlds: the experience of vibrant Cuban life with the services you will find in any good hotel across the world. Yet, we stubbornly refuse to use the word luxury or boutique. We are too small to care about labels. It is sheer hospitality we are interested in.

While distribution into two suites guarantees space and privacy, there is always a member of our staff at reach any time of day.

Good service is hard to come by in Havana, so is breakfast. That is why is included. As well as daily cleaning, refreshments and a dedicated concierge service. Plus specially made for us in Cuba, organic amenities.

We are deeply committed to local development. **El Paseo** is a small family owned business that helps other Cuban families offering fair salaries, learning opportunities and a pleasant working environment.

To help preserve the limited local resources we encourage green policies in the house. Our immediate surrounding is very important to us: *El Vedado* district and its people are a destination on itself.
